

Siemens Digital Industries Software

All-access pass to a digital future

Start enjoying all the benefits of a more accessible digital transformation with Software as a Service.

SIEMENS

We're transforming transformation to make digital more doable.

Speed up your digital transformation with our new Xcelerator as a Service offering.

Access software quickly and easily

- ✓ Make digital digital transformation more accessible
- ✓ Make digital freedom to innovate
- ✓ Scale solutions from design, simulation, manufacturing, to IoT capabilities

This is your all-access pass to a digital future:
siemens.com/cloudsolutions

Access to Xcelerator just got easier, simultaneously providing ongoing value via connection to the cloud. From startup to large enterprise, you can scale your design, manufacturing and IoT capabilities to match product and market requirements. Utilize new technologies quickly and cost-effectively, learn and keep pace with new solutions via Xcelerator Academy, collaborate securely across engineering domains, and leverage your ecosystem as a network of innovation partners. Because Software as a Service gives you the power of the world's most comprehensive digital twin – now in a more accessible, scalable and flexible form.

Your digital future: more flexible, scalable, accessible

When you have infinite data, you have infinite opportunities. The power to blur the lines of domain boundaries and combine the real and digital worlds.

With Xcelerator as a Service, we are making digital transformation more accessible to everyone - no matter what size your business is. All those promises of the future can be realized today.

Comprehensive Digital Twin

- Accessible for customers of all sizes
- Enhanced design, realize & optimize capabilities
- Secure formal & ad hoc collaboration

Personalized Adaptable Modern Features

- Easily tailored solutions
- Ramp engineering capabilities on demand
- Augmented with low-code and cross-platform compatibility

Flexible Open Ecosystem

- Secure, continuous collaboration anywhere, anytime, on any device
- Empower engineers to work across domains & sites
- Access and connect data across domains and solutions

Siemens Data Protection On the Cloud

We know that privacy, security and protection are essential to our customers. At Siemens, your data is always available and backed up to the cloud. To support your data protection needs, we created [The Siemens Trust Center](#) as your one-stop resource for information about our policies, compliance, transparency, availability and service.

Speed up your digital transformation

The Subscription Value Proposition

Enjoy more flexibility, scalability, accessibility. For one 3-year flat subscription rate.

Even with greater capabilities for more users and guests, higher value and continuous upgrades, the new rate is guaranteed to stay flat for 3 years. This not only fixes your cost for the next 3 years, it ensures 3-year access to the top productivity your company needs for competitive advantage.

For all subscription customers we will offer select Xcelerator Academy “getting started” learning to drive faster solution adoption for all users and Customer Success Management as a benefit to their subscription.

During the adoption journey the Customer Success Manager will proactively ensure that the customer will realize the value they were promised.

Transform your company into a digital enterprise today.
